

# Taking your ideas for major capital projects to completion

## Why use V4 Services?

- ➔ **Tried and tested:** Our case studies demonstrate real value delivered. We have senior level references which we're very proud to share – just ask.
- ➔ **Reputation:** We've delivered successful programmes and projects with over 120 clients across the UK including local government, NHS, social enterprises and the private sector.
- ➔ **Understanding:** We listen to your challenges to set out options, then design and deliver sustainable solutions with you to meet your strategic objectives.
- ➔ **Savings:** We're focused on delivering a high return on your investment in us. Our team have a passion for delivering the best outcomes possible through a practical approach with your teams.
- ➔ **Toolkits:** We come equipped with data analysis tools, templates and toolkits which we can tailor to meet your needs.

## Use our knowledge and experience to ensure delivery

Our exceptional experience of delivering capital programmes within public sector environments will help you to explore how you can finance, construct and operate new facilities.

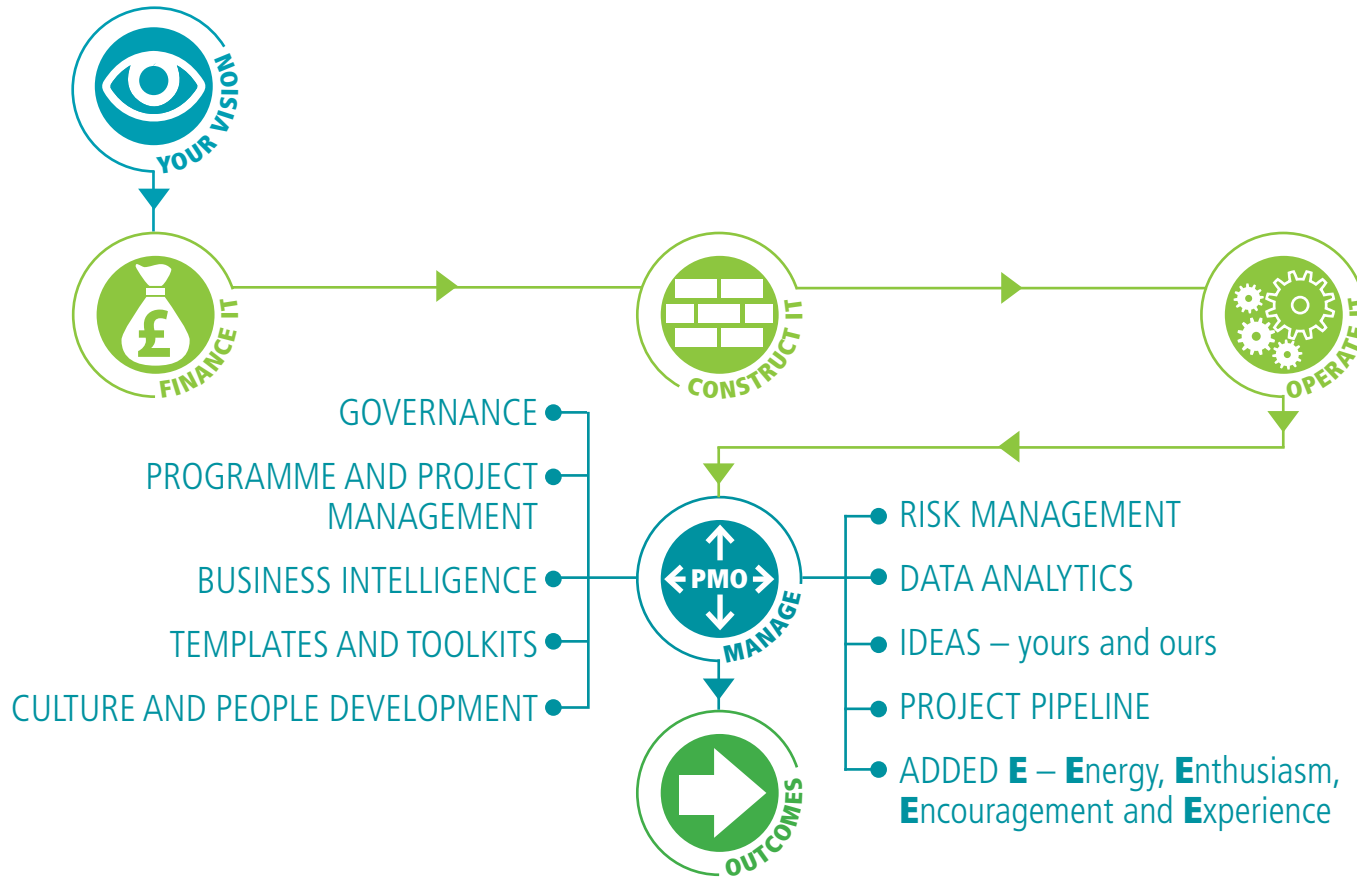

We work as part of your internal team to support you to overcome challenges and barriers, manage risk, ensure affordability, consult with stakeholders, explore funding and manage the diverse range of suppliers from construction to legal.

Working client-side as the intelligent client, we provide high-level and practical programme management to support you in the delivery of successful programmes on time and on budget.

# Our approach

We provide that extra energy, capability and capacity that you need when you are struggling to get ideas off the ground and make change happen. You are not alone in facing significant challenges and we are totally comfortable working with your teams, your members and stakeholders to set out a clear business case and then roll our sleeves up to deliver with you.

**Easy to buy**  
Our services can be procured via a number of frameworks.  
[Find out more](#)

We typically work with clients who've done what they can to deliver significant savings but are now faced with much tougher decisions to take to go further, or those who have plenty of ideas but need some help in taking concepts through to actual delivery.

Our services can be purchased as an end-to-end transformation delivery partner or on-demand to supplement existing capabilities and capacity.

## Our services

- **Strategic direction**  
Support your Senior Management Team and key stakeholders to define and shape your strategic direction.
- **Business intelligence**  
Use our benchmarking, knowledge and data analytics to aid opportunity identification, decision making and business case development.
